

High Performance Systems Group Research Projects – David Bacigalupo

That I have been/am involved in obtaining funding for.

Note that funding body rules have often prevented me from being listed as an official author despite being heavily involved in obtaining the funding, due to my not being a permanent member of academic staff.

All authors work for the University of Warwick, except where otherwise noted.

S.A. Jarvis, G.R. Nudd, “Performance Prediction and Monitoring Of Dynamic, Heterogeneous, Distributed Computer Systems”, (EPSRC research grant no. GR/R47424/01 £63,091, IBM case award for D.A. Bacigalupo £6,000), 2001-2004

G.R. Nudd, S.A. Jarvis, D.N. Dillenberger (IBM Research), “Performance-based Middleware for Grid Computing”. (EPSRC research grant no: GR/S03058/01 £608,342, IBM contribution *£amount not disclosed*), 2002-2005

I. Mitrani, N.A.Thomas,
A. van Moorsel
University of Newcastle

S.A. Jarvis, G.R. Nudd,
D.P. Spooner
University of Warwick

“Dynamic Operating Policies For Commercial Hosting Environments”, EPSRC research project common reference C28405 (£306,612), 2005-2008. In collaboration with IBM Hursley, Hewlett Packard Research Laboratories, BT Labs, the National Business to Business Centre and the University of Newcastle.

S.A. Jarvis, “The Production of Predictive Models for our Future Computing Requirements”, MOD, (*£amount not disclosed*) 2006 – 2010
